

COIL STRIPPING HAND CHISELS

Crescent design cuts wire as a unit, cleanly and smoothly. It protects cutting edge, outlasts standard chisel edges. The crescent eliminates ragged edges and prevents gouging of stators. Available for either hand - or air-hammer use. Available in sets of three different sizes (i.e. 1/2, 5/8, 3/4) or individually.

AIR HAMMER CHISELS

The Air Hammer chisel has a crescent design that cuts wire as a unit, cleanly and smoothly. It protects cutting edge and outlasts standard chisel edges. The crescent eliminates ragged edges and prevents gouging of stators. Available for air-hammer uses. Available in sets of three different sizes (i.e. 1/2, 5/8, 3/4) or individually.
